

# Study Buddies Keep in Touch via Video Chat

Two Español y Más students who travel a lot set aside an hour three days per week to communicate via Skype while they are traveling. They often give each other homework and discuss that as well as what's going on in their lives until they can meet again in class.

Besides Skype there are other services you can use such as Google Chat, AOL, Oovoo.com and many others. Log on and connect with a Spanish speaking friend anywhere in the world for free.
